## **EXAMINER'S AMENDMENT & STATEMENT OF REASONS FOR ALLOWANCE**

### ***Examiner's Amendment***

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee. The following amendment has been made to correct a minor clerical error resulting from the cancellation of claim 3.

The application has been amended as follows:

#### **Claim 5:**

In line 1, delete "3" and insert therefor --1--.

### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance:
3. The closest prior art of record, U.S. Patent No. 5,288,467 to BEIRMAIER, fails to teach or reasonably suggest the claimed invention. Specifically, BEIRMAIER discloses a chamber with an intake assembly, plural blowers and plural gate elements readable on a pressure equalization system. However, BEIRMAIER does not disclose the claimed pressure equalization system having a heating element in an intake assembly chamber connected to a washing chamber, the pressure equalization system having two gate elements responsive to a negative pressure in the chamber such that a gate

element in the intake assembly chamber allows air flow into the intake and washing chamber from outside the washer in response to a negative pressure in the washing chamber to equalize pressure in the washing chamber. For at least the foregoing reasons, claim 1 is believed to recite patentable subject matter.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
